# PRINCIPAL ACTIVITIES

MSETdc is poised to be a leading world-class construction and development company in the areas of construction, project management and consultation services.

The markets we serve while applying core competencies and skills are:-

- Infrastructure & Civil Construction
- Design & Build
- Electrical & Power Supports Infrastructure
- Project Management & Consultation
- Maintenance & Services

We provides comprehensive architectural, interior design, and related engineering services for educational, commercial, industrial, transportation, military, and other public and private entities. We provides various project delivery methods, including conventional bidding, construction management, and design-build.

We believes in becoming true partners with our clients and sharing a sense of ownership in helping to complete their projects. Our ability to understand our clients' goals and objectives and to integrate into their operations is a key reason for us to become the consultant of choice for the clients.

---
